DETAILED ACTION

The following action is in response to the amendment filed for application 10/729,495 on December 21, 2005.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

claims 4-5 have been canceled.

(Please note that claims 4-5 were withdrawn without traverse on May 19, 2005, and do not depend on a generic, allowable claim).

Allowable Subject Matter

Claims 1-2 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the shift control method as claimed, and particularly including performing a skip shift when a vehicle speed is less than a speed limit of a wide open throttle for shifting to the final target shift stage, under a set of required conditions, and including the remaining structure and controls of claims 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
